Professional Summary

Strategic and results-driven Talent Acquisition leader with 10+ years of experience across IT and Non-IT domains, spanning BFSI, Consulting, Oil & Gas, Petroleum, and global delivery environments. Proven expertise in end-to-end recruitment delivery across Permanent, Contract, Contract-to-Hire, and Bulk hiring models, supporting organizations across India, APAC, Europe, and North America.

Highly experienced in partnering with senior stakeholders and business leaders to align hiring strategies with organizational objectives, deliver time-critical and niche roles, and build scalable, high-impact hiring models. Demonstrated success working with global enterprises such as Shell, Capco, Infosys, and L&T Infotech, with strong exposure to vendor management, workforce planning, and leadership hiring.

Adept at driving the complete recruitment lifecycle—from requirement intake, market mapping, and sourcing strategy to interview coordination, offer management, onboarding, and post-hire support—while ensuring a strong candidate experience and compliance with HR policies and regulatory standards. Actively contribute to diversity and inclusion initiatives and employer branding efforts.

Leverage data-driven insights and market intelligence using tools such as Power BI, MS Excel, SharePoint, LinkedIn Talent Insights, and ATS platforms (Workday, Greenhouse, Kenexa, Taleo, SuccessFactors) to optimize hiring performance, track key metrics, identify talent trends, and support informed decision-making. Experienced in leading and mentoring recruitment teams, fostering continuous improvement, and consistently achieving or exceeding hiring goals.

Key Skills

- **Talent Acquisition:** Full-cycle recruitment, Talent sourcing and pipeline development, Stakeholder Management, Competency-based interviewing, Workforce planning and strategy, Job description creation, Onboarding and orientation, Applicant tracking systems (ATS), Diversity and inclusion initiatives, HR policy compliance, Negotiation and offer management, Employer branding, Social media and professional networking, Data analytics and reporting, Team leadership and management.
 - **Reporting Tools:** PowerBI, SharePoint, Salesforce, LinkedIn Talent Insights.
 - **Technical Skills:** Microsoft Office (Word, Excel, PowerPoint), advanced proficiency in Outlook and Google Workspace.
-

Professional Experience

Craftedrobo Technologies Pvt. Ltd.

Business & Product Lead – Talent & AI Solutions (AI Hiring Platform)

Oct 2023 – Present (Pre-incorporation); Sept 2024 – Present (Incorporated)

- Led business development initiatives including client discovery, outreach, proposal discussions, and early revenue generation across talent and technology services.
- Owned the design and delivery of an AI-powered Job Portal and ATS platform (currently ~80% product-ready), focused on improving hiring efficiency and candidate matching.
- Defined and executed the product roadmap, incorporating AI/ML-driven sourcing, intelligent screening, and hiring automation capabilities.
- Prepared and presented investor and incubator pitch decks, covering product architecture, market opportunity, competitive landscape, and revenue models.
- Engaged with investors, incubators, and accelerators (including IIT ecosystem exposure) to explore funding, mentorship, and strategic partnerships.
- Conducted continuous market and competitor research to benchmark product capabilities, pricing models, and differentiation strategies within the Talent & HRTech space.
- Supported selective recruitment delivery to establish early client traction, revenue credibility, and real-world product validation.
- Collaborated with technology, finance, and compliance partners (CA/CS) to ensure governance, scalability, and long-term operational readiness.

Shell India Markets Pvt Ltd, Bangalore, Karnataka

Integrated Resourcing | Recruiter (Contract)

April 2022 – June 2023 (1.3 years)

- Owned end-to-end recruitment delivery for mid-level to senior and leadership roles across multiple Shell business lines in India, acting as a requirement owner for strategic and business-critical hiring needs.
- Partnered directly with global and regional stakeholders across India, Europe, the Middle East, and APAC to understand workforce requirements, align hiring strategies, and provide regular progress updates.
- Led detailed job intake and briefing sessions with hiring and project managers to define role requirements, create job descriptions, and design targeted sourcing strategies for niche and critical positions.
- Executed and facilitated live sourcing initiatives to accelerate hiring for hard-to-fill roles, significantly reducing turnaround time for priority requisitions.
- Managed and mentored a team of sourcers and schedulers, ensuring SLA adherence, quality delivery, and timely closure of requisitions across parallel hiring demands.
- Drove diversity and inclusion hiring initiatives in alignment with Shell's global DEI objectives, embedding inclusive sourcing practices into recruitment strategies.
- Led HR discussions, compensation negotiations, offer rollouts, onboarding activities, and background verification coordination, ensuring a seamless and positive candidate experience.
- Maintained consistent and proactive candidate engagement, guiding candidates throughout the hiring lifecycle and addressing queries to improve offer acceptance and onboarding success.
- Developed data-driven recruitment dashboards and reports using Power BI and MS Excel, delivering actionable insights on hiring performance, pipeline health, and operational efficiency.
- Leveraged LinkedIn Talent Insights and market intelligence tools to analyze talent landscapes, competitor practices, and emerging trends, enabling continuous optimization of sourcing approaches.
- Utilized Workday ATS extensively for requisition management, screening, offer generation, hiring reports, and onboarding processes.
- Supported large-scale hiring efforts by organizing recruitment events, walk-in drives, and job fair participation, strengthening talent pipelines and employer presence.
- Successfully delivered hiring across niche and specialized skill areas including AI/ML, Data Science, NLP, Artificial Intelligence Research, Electrical Engineering, Competency Leadership, Marketing, and other critical domains.

CAPCO Technologies, Bangalore, Karnataka

CAPCO

Senior Talent Acquisition (Contract) | Senior Analyst

March 2021 - Feb 2022 (1 year)

Based on my performance, I was offered a full-time employment (FTE) position in September 2021.

- Orchestrated the entire recruitment lifecycle for professionals at junior, middle, and senior/leadership levels across various business verticals within the company.
- Managed all types of positions, including permanent, contract, and contract-to-hire roles.
- Partnered closely with hiring managers and project leaders to gather detailed requirements, design clear job descriptions, define sourcing strategies, and independently drive end-to-end recruitment execution to fill roles across levels within the assigned client group.
- Acted as the main point of contact for recruitment agencies listed on the Preferred Supplier List (PSL)/Vendor List, managing the receipt of resumes and feedback.
- Successfully closed multiple critical roles under tight timelines, earning leadership recognition.
- Oversaw interview schedules, conducted HR discussions with selected candidates, managed salary negotiations, collected relevant documents for offer issuance, prepared and issued offer and appointment letters, generated online onboarding events, and coordinated with the background check team, maintaining a supportive relationship with candidates until they onboarded.
- Proficiently utilized ATS (Greenhouse) and Microsoft Office tools (Word, Excel, Outlook, and PowerPoint).
- Received new hire requests from hiring managers and stakeholders and initiated the recruitment process accordingly.
- Managed a team of 4 recruiters, focusing on effective recruitment and overseeing end-to-end team activities.
- Conducted training for new team members on the ATS and recruitment processes, providing assistance when needed.
- Developed data-driven recruitment and market intelligence reports using MS Excel and LinkedIn Talent Insights, delivering actionable insights on hiring performance, cost efficiency, time-to-fill metrics, talent trends, competitor benchmarking, and strategic recommendations to optimize recruitment approaches.
- Planned and organized recruitment events for bulk hiring positions on a scheduled basis and participated in walk-in drives to network with potential candidates.
- Worked on various requisitions and skills such as Full Stack Java, AngularJS, DevOps, Business Analyst, Project Manager, Scrum Master, Allegro, Alteryx, UI Path, Blue Prism, accounting, risk, compliance and more.

Freelancer

June 2020 - Mar 2021

- Provided freelance recruitment support to Intelizy Softwares, working approximately two hours, two to three times a week, on a commission basis. Despite not being a full-time or contract employee, successfully closed roles such as Talend Architect, Camunda BPM, Fullstack Java Developer, and Big Data Architect for one of their clients.

Infosys

Infosys Limited, Bangalore, Karnataka

Talent Acquisition (Contract)

Feb 2019 - May 2020 (1.4 years)

- Managed the full recruitment cycle, from understanding project needs to sourcing profiles, coordinating interviews, participating in HR discussions for selected candidates, negotiating salary or contract terms, collecting necessary documents for offer issuance, and facilitating the onboarding process.
- Identified and attracted potential candidates through job boards, social media, professional networks, and internal referrals.
- Collaborated with hiring managers to understand specific job requirements, create job descriptions, and develop effective sourcing strategies.
- Scheduled and coordinated interviews with candidates, either individually or with hiring managers or interview panels.
- Utilized LinkedIn Talent Insights and other tools to acquire market intelligence and understand the talent landscape in specific geographic locations.
- Provided a positive and engaging experience for candidates throughout the recruitment process, offering guidance, answering inquiries, and keeping candidates informed about their application status.
- Ensured compliance with applicable laws, regulations, and company policies during the hiring process.
- Maintained recruitment data, including candidate profiles and interview outcomes, using applicant tracking systems (Kenexa) and reporting tools.
- Assisted in training new team members on recruitment processes, ATS usage, and provided support as needed.
- Built and nurtured positive relationships with both internal stakeholders and external candidates.
- Organized and planned recruitment events, including walk-in drives, and participated in job fairs to network with potential candidates.
- Worked on various requisitions and skills such as Java, AngularJS, .Net, DevOps, Infrastructure, Business Analyst, Project Manager, Scrum Master, Linux/Unix Administration, Network Engineers, Cloud Integration services, Big Data, and more.

LTI
Let's Solve

Larsen & Toubro Infotech Ltd, Bangalore, Karnataka

Retainer | Talent Acquisition (Contract)

Dec 2017 - Aug 2018 (9 months)

- Managed full-cycle recruitment, effectively prioritizing job requisitions based on project needs and overseeing the recruitment process for professionals at junior, middle, and senior levels across various business verticals.
- Leveraged a variety of sourcing tools, including internet search engines, job boards, LinkedIn, and social channels, to source candidates for permanent, contract, and contract-to-hire positions.
- Accumulated market intelligence, including a comprehensive understanding of the talent landscape within targeted geographic locations.
- Scheduled and coordinated interviews between candidates and hiring managers, ensuring a seamless and efficient process.
- Managed communication with recruitment agencies on the Preferred Supplier List (PSL) or Vendor List, briefing them on open positions, and serving as the primary contact for receiving resumes and feedback.
- Created job postings, placed advertisements, reviewed a high volume of resumes, coordinated phone and client/vendor interviews, extended offers, negotiated salaries, and closed positions.
- Assisted with the onboarding process, ensuring all required paperwork was completed and providing information to new hires.
- Stayed informed about industry trends and salary benchmarks to make competitive job offers and advise hiring managers.
- Cultivated and maintained strong relationships with candidates, hiring managers, and external partners, such as recruitment agencies, to streamline the recruitment process.
- Demonstrated proficiency in Applicant Tracking Systems, specifically Taleo and Success Factor.
- Worked on various requisitions and skills such as Java, AngularJS, .Net, DevOps, Infrastructure, Business Analyst, Project Manager, Scrum Master, Linux/Unix Administration, Network Engineers, Cloud technologies, Big Data, and more.
